

## SENATORS FLYING HERE TO-MORROW, ARMISTICE DAY

Big Programmes to Celebrate  
First Anniversary of End  
of Fighting.

The stage is set to-day for the first celebration of Armistice Day, which by proclamation of Gov. Smith is to be an anniversary for general celebration and commemoration in this State. Governors in many other States have proclaimed Nov. 11 a holiday, and to-morrow accordingly will be observed generally all over the country.

The day will be one of national observance by the American Legion. State organizations and local posts will hold meetings, parades and patriotic demonstrations. At the same time the first annual convention of the Legion will be in progress at Mine-Apolla.

Here in New York members of the Legion, other veterans of the war and their families are to make merry on Armistice Night. Through the agency of the War Camp Community Service three dances have been arranged for Manhattan and Brooklyn veterans. One at the Waldorf-Astoria is given by the Missouri Committee of the Hall of States. A khaki and blue dance will be held at the 71st Regiment Armory. In Brooklyn the American Legion and the War Camp Community Service are uniting in a ball at the 2nd Regiment Armory.

The American Flying Club will give a reunion dinner at the Hotel Commodore Armistice Night. Arrangements have been made to set a special table for American officers who were prisoners of war, twelve of whom have announced their intention to attend.

Several Senators are expected to fly from Washington in order to be present. The Lamba, Friars and Players Clubs are co-operating with the Flying Club in the entertainment features.

The 107th Infantry Veteran Association will have its second reunion at the Seventh Regiment Armory to-morrow evening. To-morrow morning at 10 o'clock at the Church of St. Paul the Apostle, 60th Street and Columbus Avenue, there will be a memorial mass for the soldiers of the 107th Regiment and former members of the 7th Regiment of New York who died in the war.

Former Ambassador Gerard will be one of the principal speakers at a meeting in the Cathedral of St. John the Divine on Armistice Night. The

others will be Alton B. Parker and Bishop Burch. The meeting is under the auspices of the National-Wide Campaign of the Episcopal Church. At 11 o'clock to-morrow, the hour at which fighting ceased on all fronts in France a year ago, members of the 2d Division will assemble in the first annual reunion and convention of the 2d Division Association, in Chicago.

Negro troops who served overseas will be given a welcome home to-morrow by the Brooklyn Victory Celebration Committee. Representatives of the National Council of Women will meet in St. Louis to-morrow for their biennial convention and will celebrate the signing of the armistice by starting a national song hour from that city. The Rev. Herbert Shipman, formerly Senior Chaplain of the 1st Army in France, conducted memor-

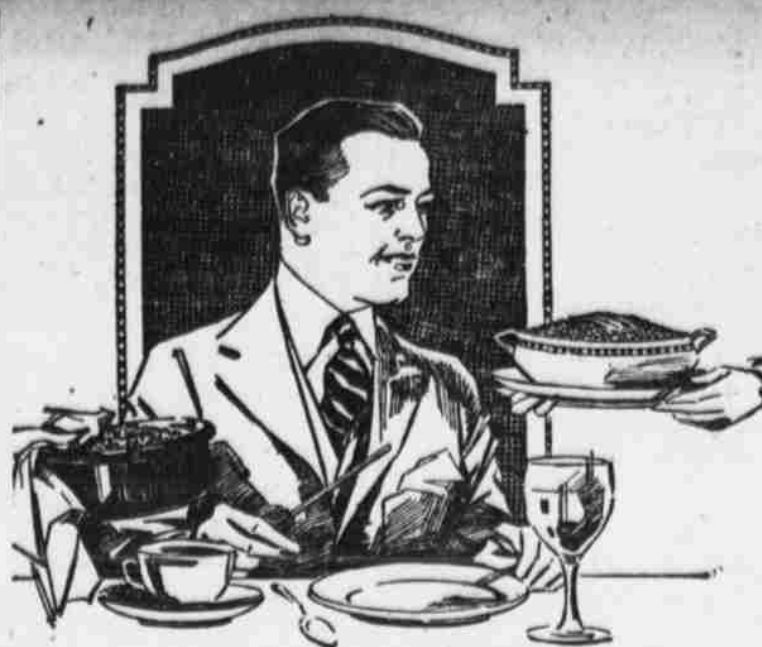

ial services in the Church of the Heavenly Rest, Fifth Avenue, near 45th Street, yesterday morning. Services were held yesterday afternoon in the armory of the 71st Regiment. The Rev. S. Parker Cadman, formerly Chaplain of the 23d New York Regiment, made the address. Major Gen. John F. O'Ryan, with his staff, and Brig. Gen. George F. Dyer occupied a box.

Memorial services for the dead of the 71st Division were held in the armory of the 7th Regiment yesterday afternoon.

## Ask the Man

Ask him which he likes best—home-baked beans or Van Camp's.  
The answer will be Van Camp's. Thousands of restaurants buy them from us to serve to men at noon.  
The reasons are—  
Van Camp's are meaty, whole and nut-like.  
None are crisped, none broken.  
The beans are extra-grade, selected by analysis.

The skins are not tough, for our boiling water is freed from minerals.  
The beans are easy to digest. They are baked for hours at 245 degrees.  
They are baked with a sauce which gives to every granule zest and tang.  
One must have costly facilities to bake beans like these. Don't try to bake them—buy Van Camp's.

## CHIROPRACTIC

FOR HEALTH

The answer is that Chiropractic is on the same high plane as the medical profession, and yet it has none of its characteristics.

Chiropractic is new. The practice of medicine and surgery, as it is generally known, has, in its essentials, been the same for centuries. It is traditional. Every one knows of it as they know their A. B. C's.

The knowledge of Chiropractic is only just beginning to be disseminated among the people at large. No new thing of use or benefit to the world has become successful, in comparatively recent years, except as its merits have been presented through the medium of high-class advertising. Advertising of this kind is educational, and it is a campaign of education that the Chiropractors of New York have undertaken.

Meeting the same hard fate that all revolutionary projects in the various lines of human endeavor have encountered Chiropractic has had to contend with the opposition of well-organized associations and organizations with those tenets it conflicted. It has been fought and fought bitterly, by medical and surgical associations, by the allopaths and the osteopaths. It has had to contend, on the other hand, with the ignorance of thousands of people who would not listen to its teachings nor believe in its success, because it was new. It has met legislative opposition in some States because its enemies were able to exert great influence among the lawmakers and in the columns of the press; and yet in spite of these obstacles it has won, so that in a score of States Chiropractic has been legalized and stands on the same basis as the various branches of the medical profession.

Before consulting a Chiropractor always make inquiry of the Chiropractic Bureau of Public Information. Address all inquiries to C. B. Box 50.—The Evening World, New York City.
